## 1 volunTECH project

## 2 VolunTECH Training

The training has been designed to support both volunteers and organisations interested in digital volunteering.

It is structured into two dedicated learning paths, each consisting of 7 modules; one tailored for volunteers and one for associations and non-profit organisations.

Participants can follow the course at their own pace and explore new ways to get involved in volunteering through digital means.

## 3 volunTECH Certification

Upon successful completion of the volunTECH online course, participants will receive a certificate recognising their learning achievements. Depending on their final score the certificate will recognise and be a testament to their basic, intermediate or advanced level of learning acquired through the course.

## 4 volunTECH toolkit

Alongside the MOOC, the volunTECH Toolkit serves as a practical resource, covering 21 carefully selected digital tools, to support NGOs in areas such as volunteer recruitment, communication, marketing, finance management, and accountability.

Following a review phase, feedback from external organisations has been taken into account to further improve its usability and relevance. The Toolkit is designed to complement the training, providing accessible tools that can be applied in day-to-day activities.

## 5 Moving forward

We are now progressing towards Work Package 4.

This step aims to create a space where individuals wishing to volunteer can explore opportunities, and NGOs can connect and engage with willing participants in digital volunteering activities.
